

MARINE BATTERIES

INTERSTATE KEEPS YOUR BOATERS MOVING

High-quality products and unparalleled service make Interstate Batteries® the preferred brand of marine batteries. Whether you need a battery for deep-cycling, cranking or a combination of the two, Interstate has you covered.

SRM

Our most popular line of marine batteries, the SRM offers strong, reliable power. In fact, it's been the choice of boaters for decades. It's used to start the motor and power the accessories while the motor is off. It is also used as the trolling motor battery.

PRO ECL

Hours out on the water can take their toll on a battery, but the new Pro ECL from Interstate Batteries is designed to take whatever hard-core anglers dish out. Recently introduced for the same applications as the SRM line, it goes further with better cycling performance. The Pro ECL flooded battery design offers the most days of boating while maintaining higher-than-normal cranking power.

- 100 repetitive reserve capacity cycles
- 50% more deep cycles than conventional flooded 12-volt batteries
- Outperforms the top two competitors in cycling

**SEALED
CRANKING**

Outrageously Dependable®

PERSONAL WATERCRAFT

CYCLE/CRANKING

DEEP CYCLE

HIGH-QUALITY PRODUCT

- Higher CCA combined with strong deep cycling
- We keep inventory fresh for a stronger, longer-lasting battery

NATIONWIDE PRESENCE

- System of 300 distributors and 1,200 route trucks delivers products before you need them
- More than 10,000 marine/RV dealers in North America means peace of mind for your boaters when it comes to warranty service
- Interstate's TV, radio and Internet advertising raises brand awareness
- Point-of-sale materials like banners, signs and displays help boost sales

UNPARALLELED SERVICE

- Regular route service ensures fresh product on your shelf
- Consignment program eliminates your inventory costs
- Green Standard recycling program surpasses current federal regulations, reduces the risk of transportation fines and helps to protect the environment

OVERALL VALUE

- Competitive pricing gives you the best value in the battery market
- Interstate's full-service model helps you profit while we take care of your battery needs

PRO ECL SERIES – Can start and provide power to the trolling motor and other accessories whether the motor is running or not. Provides 50% more cycling than conventional flooded batteries.

MARINE DEEP CYCLE – Primarily used to start a boat and provide power for accessories whether the motor is running or not.

MARINE CRANKING – Starts the motor and powers accessories while the motor is running.
