

# YOUR BEST TOOL TO BUILD TRUST

Business thrives on trust – and your business needs the best tool to build trust, the ED-18<sup>3</sup>.

With one out of four drivers needing a new battery this year, you can start building trust today by testing and sharing the results.

Whether the battery is good or gets replaced, the ED-18<sup>3</sup> gives your customers new peace of mind their battery won't leave them stranded.

Get your hands on the tool you and your customers can trust for miles down the road.

## The ED-18<sup>3</sup> at Work

- Discover battery replacement opportunities you never knew you had.
- Diagnose other electrical issues unrelated to the battery.
- Cultivate a loyal customer base because of your battery expertise.

## New Service for Your Customers

- Deliver a fast and accurate analysis of any vehicle's battery and electrical system.
- Calculate the temperature that could cause your customer's battery to fail.
- Inform your customers with a copy of the analysis.
- Save your customers from getting stranded by a failed battery.
