

ED-18^{®3} QUICK REFERENCE GUIDE

TEST BATTERIES

Select "Test" and follow the prompts.

Connect the clamps to the battery and enter the battery information.

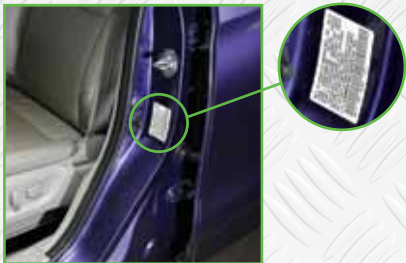

Take the temperature. Then print two copies of the results.

SCAN THE VIN

Inside the driver's door

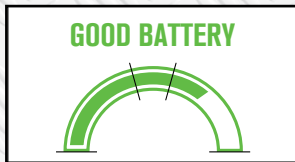

On the bottom-left of the windshield

THE RESULTS

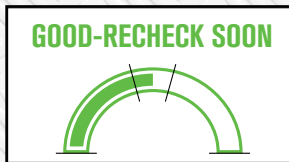

GOOD:

The battery's performing well.

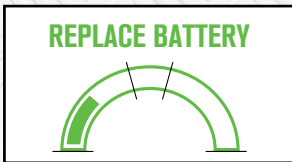

GOOD-RECHECK SOON:

The battery may fail soon. Replace today or have tested again in 3 months.

REPLACE:

This battery should be replaced today.

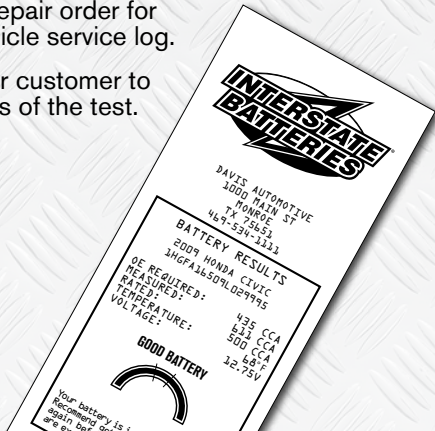

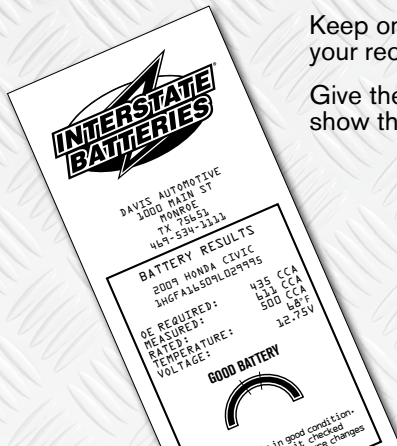

CHARGE AND RETEST: Battery too weak to test. Charge, then test again.

PRINT TWO COPIES OF RESULTS

Keep one with your repair order for your records and vehicle service log.

Give the other to your customer to show them the results of the test.

DOCK THE ED-18³ EVERY NIGHT
